

## **Operating Instructions**

### **JR Synthesized TX Module (JRPTXMS)**

#### **TX Compatibility –**

This synthesized module is usable with any transmitter that uses a standard JR® Module. This would include all 8-, 9- & 10- channel transmitters, as well as X-347 and Century 7 transmitters.

#### **General Operation**

The operation of your new JR Synthesized Transmitter Module is designed to be easy and user-friendly, allowing for maximum convenience, whether at the flying field or workbench.

Changing Operating Channels (CH11 – 60 available):

1. Turn the power switch of the transmitter to “Off.”
2. Rotate the dial on the left side of the module to correspond to the first digit in the channel number you wish to change to. (1 – 5)
3. Rotate the dial on the right side of the module to correspond with the second digit in the channel number you wish to change to. (0 - 9)
4. Turn the power switch of the transmitter to “On.”

**Safety Note - The power switch must be off to actually change the operating channel. Should you attempt to change the channel with the power switch “On,” the module will remain on the previously chosen channel regardless of the dial positions. In this case, in order for the newly chosen channels to be operated, the user will need to cycle the power switch to “Off” and then back to “On.”**

## JR Product Warranty

**Important Note:** Be sure to keep your original, dated sales receipt in a safe place as you will be required to provide proof-of-purchase date for the equipment to be serviced under warranty.

### WARRANTY COVERAGE

Your new JR® Remote Control Radio System is warranted to the original purchaser against manufacturer defects in material and workmanship for 3 years from the date of purchase. During this period, HORIZON SERVICE CENTER will repair or replace, at our discretion, any component that is found to be factory-defective, at no cost to the purchaser. This warranty is limited to the original purchaser of the unit and is not transferable. This warranty does not apply to any unit which has been improperly installed, mishandled, abused, or damaged in a crash, or to any unit which has been repaired or altered by any unauthorized agencies. Under no circumstances will the buyer be entitled to consequential or incidental damages. This limited warranty gives you specific legal rights; you also have other rights which may vary from state to state. As with all fine electronic equipment, do not subject your radio system to extreme temperatures, humidity or moisture. Do not leave it in direct sunlight for long periods of time.

### REPAIR SERVICE DIRECTIONS

In the event that your JR radio needs service, please follow the instructions listed below:

1. Check all on/off switches to be sure they are off. This will speed the repair process of checking battery condition.
2. Return your system components only (transmitter, receiver, servos, etc.) Do not return your system installed in a model aircraft.
3. Preferably, use the original carton/packaging (molded foam container), or equivalent, to ship your system. Do not use the system carton itself as a shipping carton. You should package the system carton within a sturdy shipping container using additional packing material to safeguard against damage during transit. Include complete name and address information inside the carton, as well as clearly writing it on the outer label/return address area.
4. Include detailed information explaining your operation of the system and problem(s) encountered. Provide an itemized list of equipment enclosed and identify any particular area/function which may better assist our technicians in addressing your concerns. Date your correspondence, and be sure your complete name and address appear on this enclosure.
5. Include your name, mailing address, and a phone number where you can be reached during the business day.
6. **Warranty Repairs.** To receive warranty service, you must include your original, dated sales receipt to verify your proof-of-purchase date. Providing that warranty conditions have been met, your radio will be repaired without charge.
7. **Normal Non-Warranty Repairs.** Should your repair cost exceed 50% of the retail purchase cost, you will be provided with an estimate advising you of your options. Within your letter, advise us of the credit card you prefer to use. HORIZON SERVICE CENTER accepts VISA, MasterCard, American Express, or Discover. Please include your card number and expiration date. The HORIZON SERVICE CENTER also accepts money orders.
